

EL CENTRO DE LA RAZA

WHAT WE DO FOR STUDENTS

WHO WE ARE

El Centro was established in 1969 to support the largest and fastest growing ethnic population of students at UNM. Under New Mexico State Statute, El Centro is tasked with recruitment and retention of Hispanic students. El Centro is a vessel for Hispanic students at a Hispanic Serving Institution. We support this community with special programs, scholarships, academic guidance, and advocacy services.

OUR MISSION

El Centro de la Raza will positively impact the transition, retention, and graduation of students through an engaging environment built on academic, cultural, personal and professional activities. El Centro commits to cultivate a supportive community that helps students develop skills to fulfill their life long goals and expectations.

HOW WE IMPACT STUDENTS

El Centro will positively impact retention and graduation of undergraduate and graduate/professional students through academic, cultural/personal and professional activities designed to build a sense of community and a supportive environment. Recruit Latino students and provide information to Latino students and their families about UNM and El Centro programs/activities. Use program evaluation and assessment data for continuous improvement and to ensure its relevance in academic, cultural and professional aspirations of Latino students.
