

VETERAN'S AND MILITARY RESOURCE CENTER

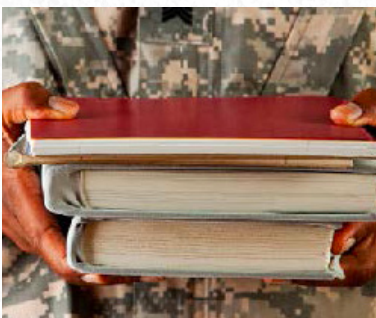

WHAT WE DO FOR STUDENTS

WHO WE ARE

This one-stop-shop provides information to military-affiliated students on the ins and outs of transitioning from military life to civilian and college life, including how to start the process of using VA Education Benefits at UNM. The VMRC is the liaison between the veteran and military-affiliated community to UNM as a whole, as well as the vast network of external veteran entities such as the Department of Veterans Affairs and the New Mexico Department of Veterans Services. The VMRC works hand-in-hand with other UNM resources to ensure that military-affiliated students receive the support they need to succeed academically, personally, and professionally.

OUR MISSION

The VMRC is dedicated to providing the highest quality and comprehensive support to military-affiliated students in an atmosphere that provides commitment, respect, and academic excellence. We provide education, administrative services, and job advisement to our military-affiliated students, as well as outreach to military communities at large.

HOW WE IMPACT STUDENTS

Green Zone Trainings prepare university faculty and staff to more fully understand the experience of veterans, service members, and their families at UNM. Vet Success on Campus (VSOC) is a collaboration between the U.S. Department of Veterans Affairs (VA) and the University of New Mexico (UNM). Embedded mental health counselor serves the military-affiliated student population, giving them a space they feel safe in, in an environment they are comfortable visiting. Peer Advising for Veteran Education (PAVE) program matches up military-affiliated mentors with military-affiliated mentees to offer academic and personal support to help with transitioning from military to academics and life after academics.
