

Message from the Vice President

Dear Student Affairs Colleagues,
Our work continues as we are now a quarter of the way through the semester. Last week we had the opportunity to gather in community as a full Student Affairs team and I must say it felt wonderful to be together, make connections, and reflect

on our shared purpose to serve students. During that meeting I had the opportunity to highlight our division leaders, congratulate our teams on an outstanding welcome, reflect on the 2040 goals, and share some priorities I have for the year including:

- providing a vibrant, thriving campus community
- maintaining our enduring focus on student success
- centering equity and excellence in all of our work
- engaging in strategic planning for student affairs

You each have a role to play in both advancing our 2040 goals and elevating our work with these priorities in mind. As we enter [Hispanic Heritage Month](#), I want to highlight specifically the importance of inclusive excellence and the cultivation of equity-mindedness. As a diverse, R1, flagship, HSI, it is critical that we be a model for being student ready and sustaining an environment where students can bring their full, authentic selves. I look forward to continuing to see our work progress.

With appreciation,

Eric
